

Policy Title	Disposable policy
Responsible University Office	Rural Development Center
Pertinent Dates	01-01-2024

1-Brief OF POLICY

Disposable policy is important to involve extensions to services, especially in the context of outsourced services and the supply chain, it's crucial to establish clear guidelines and expectations to ensure compliance. Here are some steps and considerations for extending the disposable policy to outsourced services and the supply chain.

2-DEFINITIONS

Extension of service means the provision of service through any physical or operational infrastructure arrangement other than consolidation.

3- POLICY STATEMENT

Heliopolis University for Sustainable Development support the idea of extending the disposable policy to outsourced services and the supply chain, to create a more comprehensive and sustainable approach that can significantly reduce waste and promote environmentally responsible practices throughout the entire business ecosystem.

4- RESPONSIBILITIES

Heliopolis University for Sustainable Development (e.g. faculty, students, operating units, departments, managers, etc.) Must Implement the Disposable policy by execution of sustainable outsourced services and the supply chain.

5- POLICY Rules

- Incorporate Policy Provisions in Contracts: When engaging with outsourced service providers, include specific clauses in contracts that enforce adherence to the disposable policy.
- Auditing and Compliance Checks: Regularly audit and monitor outsourced service providers and suppliers to ensure they are complying with the disposable policy.

- Educate and Collaborate: Educate your partners, suppliers, and outsourced service providers about the disposable policy and its significance.
- Supply Chain Evaluation: Evaluate your entire supply chain to identify areas where the disposable policy can be applied.
- Encourage Innovation: Encourage innovation and the development of eco-friendly solutions within the supply chain.
- Provide Support and Resources: Offer support and resources to your partners, such as guidelines, best practices, or access to experts, to help them comply with the disposable policy.
- Continuous Improvement: Regularly review and update the disposable policy to integrate new practices or technologies that further enhance sustainability within the supply chain.
- Transparency and Reporting: Maintain transparency in the supply chain by requiring reports on waste management and sustainability efforts from all involved parties.
